

SHOOTING GUIDELINES DURING COVID-19 OUTBREAK

COMMERCIALS & DIGITAL CONTENT PRODUCTION WITH STRICT INTERNATIONAL HEALTH & SAFETY STANDARD

Chopstick Films is using the production guidelines provided by the Thai authorities as well as the best practices from countries around the world.

Pre-Production

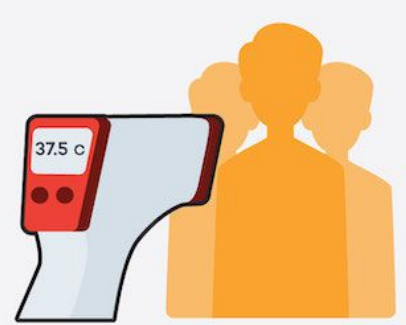

Conference calls encouraged for Internal to Final PPM

Production

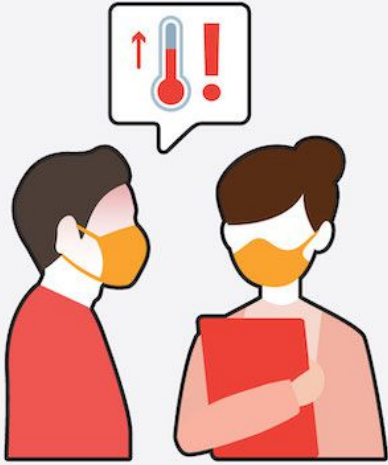

Strictly follow the issued Government and Chopstick Films guidelines

- 14 days quarantine for foreigners traveling from high risk countries or as per current government guidelines.
- Only allow cast and crew agreeing to sign the declaration that they have not been in high-risk areas or close contact with COVID-19 suspected person to be on premise.

Production

- Mandatory temperature checks twice a day before entering the set and during lunch. Anyone with a body temperature above 37.5°C will not be allowed.
- Maximum of 50 cast and crew on set at a single area at any given time.

Production

- Always follow social or physical distancing.
- No hugging and avoid touching or handshakes.
- If you feel unwell, notify the Producer or Health Officer immediately.

Production

- Facial masks are mandatory. Talents will be exempted from this rule during the performance.
- We encourage the cast and crew to bring their own water bottles and individual food packs.
- We'll organized the space around the set to maintain physical distancing

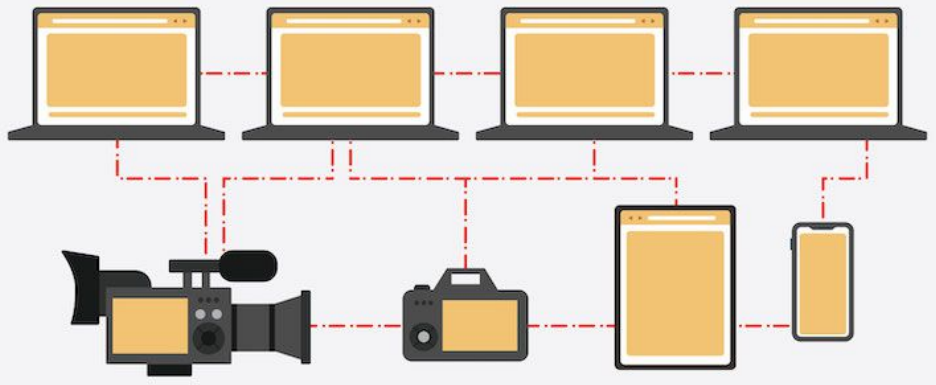

Production

- Studio and any interior space will undergo a Deep Cleaning prior to the shoot day.
- Hand wash facilities and antibacterial solutions will be placed in multiple spots on set and at base camp.

Production

- Production will provide extra cleaning service staff on set.
- Individuals and team members are encouraged to clean their own personal and shooting materials regularly.
- Any item in direct contact with the talents or crew have to be cleaned before and after use.

Live Streaming

- Chopstick Films is also fully equipped to provide Remote Live Streaming System.
- Our seamless and proven technology provides secured, high speed connectivity with easy to use instructions.

Post Production

Chopstick Films has an efficient post production workflow where the projects can be shared, viewed, discussed, modified and presented in real time.
